10 Steps to a Digital Practice in the Cloud: New Levels of CPA Firm Workflow Efficiency By John H. Higgins, Bryan L. Smith

Looking for an easy-to-follow roadmap for leveraging the unprecedented array of information technology solutions that are available today? Accounting and tax practitioners will find just that in this handy guide.

Going paperless is not the objective. Going digital is. Thanks to the digitization of data and the cloud, we can access our critical information at any time, from virtually anywhere using laptops, iPads, smartphones, or whatever is coming next. Learn how the key trends in technology today--including SaaS or cloud computing, mobile computing, client portals, and extended workflows--can help you work more efficiently.

In addition to introducing you to the cloud **10 Steps to a Digital Practice in the Cloud:** ***New Levels of CPA Firm Workflow Efficiency***, will walk you through the "steps" that you must consider when making the move to a more efficient practice: Infrastructure; BandwidthCPA technology toolkit; Scanning solutions; Document management systems; Trial balance working paper software; Client portals; Workflow software; Cloud-based accounting systems; Security and disaster recovery

Harnessing this revolutionary technology will enable you to get your work done as efficiently and *profitably* as possible, allowing you to focus your efforts on analysis and planning advice that will optimize the value of your services to your firm and your clients.
