When the Wind Blows By James Patterson

Frannie O'Neill is a young and talented veterinarian living in Colorado. Plagued by the mysterious murder of her husband, David, a local doctor, Frannie throws herself into her work. It is not long before another bizarre murder occurs and Kit Harrison, a troubled and unconventional FBI agent, arrives on her doorstep.

Late one night, near the woods of her animal hospital, Frannie stumbles upon a strange, astonishing phenomenon that will change the course of her life forever....

Her name is Max.

With breathtaking energy, eleven-year-old Max leads Frannie and Kit to uncover one of the most diabolical and inhuman plots of modern science. When the Wind Blows is as unique a story as has ever been told, filled with suspense and passion.

Editorial Review

Amazon.com Review
When the Wind Blows has one of those outrageous premises that you either buy into (a girl with wings?), or you don't. Fortunately, Blair Brown's narration helps you suspend disbelief. Brown, the multi-Emmy-nominated star of the classic TV series *The Days and Nights of Molly Dodd*, reads the story with more authority than the plot seems to merit. But as urgent and forceful as she is with the central narration, she's even better when reading the first-person passages in the voice of Frannie O'Neill, the widowed veterinarian at the center of this James Patterson thriller. That's when she gives the story real heart, a desperately needed humanity in the midst of all the cloning and genetic tinkering. (Running time: six hours, four cassettes) --*Lou Schuler*

From Library Journal
Patterson (Cat and Mouse, Audio Reviews, LJ 10/1/98) brings together three interesting characters in this story of genetic testing, abuse of power, and murder. Frannie O'Neill is a veterinarian trying to escape the pain of the murder of her husband, a young doctor in a local Denver hospital. Kit Harrison is an FBI agent trying to escape family problems and a nonsupportive boss who is unwilling to let him continue to work on a series of cases, including the murder of Frannie's husband. Max, a young girl raised in a lab, has brains, pluck, and the ability to fly. These three people are brought together and eventually find friendship, love, and a way to stop the genetic experiments to create a new breed of children like Max. Diehard Patterson fans will enjoy this book; others may find the violence especially uncomfortable and may not like how the children are treated. However, the relationships among the characters are interesting, and readers will cheer Max and how she escapes and beats her captors. Blair Brown does an acceptable job with her performance. Review
In his best book yet, Patterson has written a riveting adventure-thriller that no reader, or book-seller, will ever forget. Never has it been truer of a Patterson novel--the pages fly.
