Financial Accounting helps students “nail” the accounting cycle!

Financial Accounting features the ‘accounting cycle’ up front in the text in order to increase success and retention later on. The concepts and mechanics students learn in the critical ‘accounting cycle’ chapters are used consistently and repetitively—and with clear-cut details and explanations—throughout the remainder of the text, thus minimizing confusion.

MyAccountingLab for ***Financial Accounting*** is an online homework, tutorial, and assessment program that truly engages students in learning. It helps students better prepare for class, quizzes, and exams—resulting in better performance in

the course—and provides educators with a dynamic set of tools for gauging individual and class progress.
