With the growth of hedge funds globally there is more and more requirement for fund administration services, and the success of the fund administration is crucial to the success of the funds themselves in a highly competitive market. As the focus on operational risk, cost effective support and administration of trading and investment and the ability to design, develop and deliver added-value services for clients grows there is a need for a comprehensive analysis of what happens from trade to settlement and beyond and the exact role that the fund administrator may be required to provide.
