Inquiry and Innovation in the Classroom: Using 20% Time, Genius Hour, and PBL to Drive Student Success (Eye on Education) By A.J. Juliani

Careers in the 21st century are changing, but traditional education methods are not preparing students for these new jobs and demands. In this thought-provoking book, esteemed educator A.J. Juliani describes how we need to modify our classrooms to instill in students the drive for inquiry and innovation that they will need to succeed beyond school doors. Juliani reveals the ways that teachers can use Google's 20% Time, Genius Hour, and Project-Based Learning to make students more creative, inquisitive, engaged in learning, and self-motivated?the kind of people we need to move society forward! He offers easy ways to implement these ideas while meeting the Common Core and still allowing plenty of time for content instruction.

Special Features:

- Research on the benefits of inquiry-based learning
- Connections to the Common Core State Standards
- Stories and examples from the field
- Exciting ideas for using 20% Time, Genius Hour, and PBL at various grade levels
- Tips for preparing parents and administration for your new instruction
- Ideas for expanding your knowledge and continually learning in this area
- Classroom applications for each chapter, including sample projects and resources
- Bonus content with reproducible materials that you can use in your classroom right now, such as student checklists, questions, lessons, and unit plans

As Juliani emphasizes, if we want our students to change the world, we must change our classrooms to foster inquiry and innovation.

Editorial Review

Review

"A.J. has written something that gives great ideas and will push your learning long after."

--From the foreword by George Couros, education thought leader and Division Principal of Innovative Teaching and Learning with Parkland School Division in Alberta, Canada

"If you want to prepare kids for the realities of life in an intensely competitive economy, then you must look beyond the classroom. This book suggests exciting and doable ways to bring the ideas of the best creative minds from around the world into your class."

--Daniel H. Pink, author of *To Sell Is Human* and *Drive*

"AJ Juliani has written the definitive how-to manual on genius hour, 20% time, and project based learning. As a teacher, it makes me happy to see so many practical classroom examples and ideas I can use tomorrow with my students. If you want to be an engaging 21st century educator, this book is for you."

--Vicki Davis, author of *Reinventing Writing* and creator of the Cool Cat Teacher Blog

"Inquiry is the engine that drives innovation," writes AJ Juliani, a Technology Staff Developer, consultant, and former teacher who lives out this truth and delves into it in *Inquiry and Innovation in the Classroom*. AJ's expertise in fostering students' curiosity and passion will guide educators in creating progressive inquiry-based learning environments and preparing students for the future. AJ's book is essential reading for anyone with a desire to change education--and the world--for the better!"

--Angela Maiers, consultant on 21st century teaching and coauthor of *The Passion-Driven Classroom*
