A First Course in Differential Equations By Dennis G. Zill

A First Course in Differential Equations with Modeling Applications, 9th Edition strikes a balance between the analytical, qualitative, and quantitative approaches to the study of differential equations. This proven and accessible text speaks to beginning engineering and math students through a wealth of pedagogical aids, including an abundance of examples, explanations, "Remarks" boxes, definitions, and group projects. Using a straightforward, readable, and helpful style, this book provides a thorough treatment of boundary-value problems and partial differential equations.

Editorial Review

About the Author
Dennis G. Zill is professor of mathematics at Loyola Marymount University. His interests are in applied mathematics, special functions, and integral transforms. Dr. Zill received his Ph.D. in applied mathematics and his M.S. from Iowa State University in 1967 and 1964, respectively. He received his B.A. from St. Mary's in Winona, Minnesota, in 1962. Dr. Zill also is former chair of the Mathematics Department at Loyola Marymount University. He is the author or co-author of 13 mathematics texts.

Users Review

From reader reviews:

Gertrude Barrett:

Book is to be different per grade. Book for children till adult are different content. As we know that book is very important normally. The book A First Course in Differential Equations was making you to know about other understanding and of course you can take more information. It is extremely advantages for you. The publication A First Course in Differential Equations is not only giving you much more new information but also to become your friend when you feel bored. You can spend your own spend time to read your publication. Try to make relationship with the book A First Course in Differential Equations. You never truly feel lose out for everything when you read some books.

Gene Baker:

Do you among people who can't read gratifying if the sentence chained inside the straightway, hold on guys this kind of aren't like that. This A First Course in Differential Equations book is readable simply by you who hate the straight word style. You will find the details here are arrange for enjoyable reading through experience without leaving also decrease the knowledge that want to deliver to you. The writer involving A First Course in Differential Equations content conveys thinking easily to understand by most people. The printed and e-book are not different in the content but it just different by means of it. So , do you still thinking A First Course in Differential Equations is not loveable to be your top list reading book?

Paula Mayo:

This book untitled A First Course in Differential Equations to be one of several books in which best seller in this year, that is because when you read this book you can get a lot of benefit onto it. You will easily to buy this specific book in the book retail store or you can order it by means of online. The publisher of the book sells the e-book too. It makes you more easily to read this book, because you can read this book in your Cell phone. So there is no reason for you to past this e-book from your list.

Frances Sitz:

Are you kind of stressful person, only have 10 or maybe 15 minute in your day time to upgrading your mind expertise or thinking skill possibly analytical thinking? Then you are experiencing problem with the book when compared with can satisfy your short time to read it because all of this time you only find e-book that need more time to be examine. A First Course in Differential Equations can be your answer mainly because it can be read by a person who have those short time problems.
