Introduction to Homeland Security: Principles of All-Hazards Risk Management (Butterworth-Heinemann Homeland Security) By Jane Bullock, George Haddow, Damon P. Coppola

Bullock and Haddow have set the standard for homeland security textbooks, and they follow up their top-selling second edition with this substantially improved third edition. Professional practitioners value the decades of experience that the authors bring to their analysis, and their passionate argument for an all-hazards approach to enhancing America's safety is now presented still more cogently.

Links to the most current online government information help to keep the text up-to-date in this rapidly developing field.

The bedrock principles of preparing for, mitigating, managing, and recovering from a disaster remain the same through the years, and this revision emphasizes their value with new clarity and conviction.

NEW TO THIS EDITION: * New chapter on the future of homeland security * Updates include developments since 2006, such as the shift from DHS to HHS of National Disaster Medical System * Slideshow of key moments in American homeland security, including 9/11 and Katrina

Editorial Review

Review
"I was extremely impressed with the content. It was comprehensive, well written, and flowed evenly. The sidebars gave great supplementary information. The colors used in the text made key concepts stand out visually for the reader. Photographs were high quality...Overall, this is a fine textbook."--Bryan Scyphers, National Disaster Medical System
