CCDP Self-Study: Designing Cisco Network Architectures (ARCH) (Self-Study Guide) By Amir Ranjbar, Keith T. Hutton

Cisco authorized self-study book for CCDP® 642-871 architectures foundation learning

Prepare for the CCDP ARCH exam 642-871 with the Cisco authorized self-study guide. This book teaches you how to:

- Understand the composition and deployment of the Cisco AVVID framework in network design
- Understand the composition and role of the Enterprise Composite Network Model in enterprise network design
- Design enterprise campus networks and their edge network connectivity to the Internet
- Understand and implement network management solutions in the network
- Integrate new technologies designed to enhance network performance and availability in the enterprise, such as high availability, QoS, multicasting, and storage and content networking
- Design and implement appropriate security solutions for enterprise networks
- Deploy wireless technologies within the enterprise
- Implement and design IP telephony solutions for the enterprise network

CCDP Self-Study: Designing Cisco Network Architectures (ARCH) is a Cisco® authorized self-paced learning tool. By presenting a structured format for the conceptual and intermediate design of AVVID network infrastructures, this book teaches you how to design solutions that scale from small to large enterprise networks and take advantage of the latest technologies. Whether you are preparing for the CCDP® certification or simply want to gain a better understanding of how to architect network solutions over intelligent network services to achieve effective performance, scalability, and availability, you will benefit from the foundation information presented in this book.

This comprehensive book provides detailed information and easy-to-grasp tutorials on a broad range of topics related to architecture and design, including security, fine-tuning routing protocols, switching structures, and IP multicasting.

To keep pace with the Cisco technological developments and new product offerings, this study guide includes coverage of wireless networking, the SAFE Blueprint, content networking, storage networking, quality of service (QoS), IP telephony, network management, and high availability networks. Design examples and sample verification output demonstrate implementation techniques. Configuration exercises, which appear in every chapter, provide a practical review of key concepts to discuss critical issues surrounding network operation. Chapter-ending review questions illustrate and help solidify the concepts presented in this book.

CCDP Self-Study: Designing Cisco Network Architectures (ARCH) is part of a recommended learning path from Cisco Systems® that includes simulation and hands-on training from authorized Cisco Learning Partners and self-study products from Cisco Press. To find out more about instructor-led training, e-learning, and hands-on instruction offered by authorized Cisco Learning Partners worldwide, please visit www.cisco.com/go/authorizedtraining.

This volume is in the Certification Self-Study Series offered by Cisco Press®. Books in this series provide officially developed training solutions to help networking professionals understand technology implementations and prepare for the Cisco Career Certifications examinations.

Editorial Review

About the Author

Keith Hutton is a senior Cisco network administrator with Magma Communications Ltd., Canada’s leading, full-service Internet company. Prior to joining Magma, Keith worked as a certified Cisco Systems instructor with Global Knowledge Canada. He currently holds the CCNP® and CCDP certifications.

Amir Ranjbar, CCIE® No. 8669, is a senior network architect at Global Knowledge and is a certified Cisco Systems instructor. Amir is author of the CCNP CIT Exam Certification Guide, published by Cisco Press.

Users Review

From reader reviews:

Kelly Neidig:

Have you spare time to get a day? What do you do when you have a lot more or little spare time? That's why, you can choose the suitable activity to get spend your time. Any person spent their particular spare time to take a move, shopping, or went to often the Mall. How about open or even read a book eligible CCDP Self-Study: Designing Cisco Network Architectures (ARCH) (Self-Study Guide)? Maybe it is to get best activity for you. You realize beside you can spend your time with your favorite's book, you can smarter than before. Do you agree with their opinion or you have some other opinion?

Curt Roepke:

The book CCDP Self-Study: Designing Cisco Network Architectures (ARCH) (Self-Study Guide) can give more knowledge and also the precise product information about everything you want. Why must we leave the good thing like a book CCDP Self-Study: Designing Cisco Network Architectures (ARCH) (Self-Study Guide)? Several of you have a different opinion about publication. But one aim that book can give many information for us. It is absolutely correct. Right now, try to closer with the book. Knowledge or information that you take for that, you may give for each other; you may share all of these. Book CCDP Self-Study: Designing Cisco Network Architectures (ARCH) (Self-Study Guide) has simple shape however you know: it has great and massive function for you. You can seem the enormous world by open and read a guide. So it is very wonderful.

Brent Abramson:

Spent a free time for you to be fun activity to try and do! A lot of people spent their leisure time with their family, or their own friends. Usually they accomplishing activity like watching television, planning to beach, or picnic from the park. They actually doing same every week. Do you feel it? Do you want to something different to fill your own free time/ holiday? Could possibly be reading a book can be option to fill your totally free time/ holiday. The first thing you ask may be what kinds of publication that you should read. If

you want to try out look for book, may be the e-book untitled CCDP Self-Study: Designing Cisco Network Architectures (ARCH) (Self-Study Guide) can be good book to read. May be it may be best activity to you.

Shannon Silva:

CCDP Self-Study: Designing Cisco Network Architectures (ARCH) (Self-Study Guide) can be one of your starter books that are good idea. We all recommend that straight away because this e-book has good vocabulary which could increase your knowledge in language, easy to understand, bit entertaining but nevertheless delivering the information. The copy writer giving his/her effort to put every word into enjoyment arrangement in writing CCDP Self-Study: Designing Cisco Network Architectures (ARCH) (Self-Study Guide) although doesn't forget the main position, giving the reader the hottest and also based confirm resource information that maybe you can be certainly one of it. This great information could drawn you into fresh stage of crucial thinking.
