Flash floods, tsunamis, earthquakes, hurricanes, mudslides, thunderstorms, and wildfires - these devastating events are happening around the world at an alarming rate. As a Meteorologist on CNN and HLN, Bonnie Schneider reports on these natural disasters, explaining when they're likely to strike, and telling viewers how to respond when they do. In Extreme Weather, Schneider distills that information into a guide for readers. She interviews experts from a wide variety of agencies - including FEMA and NOAA - to provide a comprehensive understanding of the science behind weather patterns and the latest thinking on how to act in dangerous conditions. Ranging from topics that cover every season and every climate, Schneider introduces the reader to the best course of action during weather emergencies, including:

*how to handle extreme weather scenarios in your car, outside, on a boat or at home

*how to prepare for potential dangers, such as deadly lightning, when planning a camping trip, vacation or sports outing

*what you need to have at home to protect against floods, earthquakes, or severe storms
