Social Capital in the Knowledge Economy: Theory and Empirics (Advances in Spatial Science) By Hans Westlund

This book analyzes the social capital of the growing knowledge economy, from both theoretical and empirical points of view. The theoretical section discusses social capital as an economic concept, developing a theory of the social capital of the enterprise. The empirical section compares aspects of the social capital of three different socio-economic systems: the US, Japan and Sweden. The book discusses a number of issues for further research.
