The Penis Book: An Owner's Manual for Use, Maintenance, and Repair By Margaret Gore

A man will usually read the owner's manual of anything he owns, whether it's his car, stereo system, or computer software. He wants to know how it works, what he can do with it, and what to do if things go wrong. However, when it comes to getting information about his most prized possession - his penis - a lot of men don't know where to go. The Penis Book explodes the myths of male sexuality, explains the plumbing and what can go wrong, discusses sexually transmitted diseases and how to avoid them, and sexual problems and how to overcome them. Using frank and engaging language, The Penis Book answers questions men are often too embarassed to ask, and presents the facts in a manner easily accessible to males of all ages, from teenage boys to senior citizens.

Editorial Review

Amazon.com Review
You would think that the mythology of male sexuality is a thing of the past, that most men know that from time to time their penises won't achieve or sustain erections, and that guys have just as much right as women to occasionally not be in the mood. But images of hyperdrive masculinity still exist in popular culture, and as long as guys take them to heart, they'll continue to freak out over the smallest malfunctions. Thus, *The Penis Book* is a comfort object, a small and easily concealable guide to how the penis works and why it occasionally doesn't, how men can effectively prevent impregnating their partners, and how to deal with the real problems that occur, including STDs.

Users Review

From reader reviews:

Shirley Dildy:

This The Penis Book: An Owner's Manual for Use, Maintenance, and Repair book is simply not ordinary book, you have after that it the world is in your hands.
