If you would like to purchase both the physical text and MyMISLab search for ISBN-10: 0134058453 /ISBN-13: 9780134058450. That package includes ISBN-10: **0133919862**/ISBN-13: **9780133919868** and ISBN-10: **0133921980 /ISBN-13: 9780133921984 .**

For undergraduate Introductory Management Information Systems courses

As technology continues to change the way organizations do business, knowledge of MIS is critical. Using MIS shows you how businesses use information systems to solve business problems every day. Illustrative cases, exercises, projects, and other aids ensure you connect concepts to everyday life. Unique Guides in each chapter highlight themes in ethics, security, and other timely topics. With a new edition publishing each year, Using MIS keeps you up to date.

Personalize Learning with MyMISLab™
MyMISLab is an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. Within its structured environment, students practice what they learn, test their understanding, and pursue a personalized study plan that helps them better absorb course material and understand difficult concepts.

Editorial Review

About the Author
David Kroenke has many years of teaching experience at Colorado State University, Seattle University, and the University of Washington. He has led dozens of seminars for college professors on the teaching of information systems and technology; in 1991, the International Association of Information Systems named him Computer Educator of the Year. In 2009, David was named Educator of the Year by the Association of Information Technology Professionals-Education Special Interest Group (AITP-EDSIG).

David worked for the U.S. Air Force and Boeing Computer Services. He was a principal in the startup of three companies, serving as the vice president of product marketing and development for the Microrim Corporation and as chief of database technologies for Wall Data, Inc. He is the father of the semantic object data model. David's consulting clients have included IBM, Microsoft, and Computer Sciences Corporations, as well as numerous smaller companies. Recently, David has focused on using information systems for teaching collaboration and teamwork.

His text *Database Processing* was first published in 1977 and is now in its 13th edition. He has authored and coauthored many other textbooks, including *Database Concepts,* 7th ed. (2015), *Experiencing MIS,* 6th ed. (2016), *SharePoint for Students* (2012), *Office 365 in Business* (2012), and *Processes, Systems, and Information: An Introduction to MIS,* 2nd ed. (2015).

Randall J. Boyle received his Ph.D. in Management Information Systems from Florida State University in 2003. He also has a master's degree in Public Administration and a B.S. in Finance. He has received university teaching awards at Longwood University, the University of Utah, and the University of Alabama in Huntsville. He has taught a wide variety of classes including Introduction to MIS, Cyber Security, Networking & Servers, System Analysis and Design, Telecommunications, Advanced Cyber Security, Decision Support Systems, and Web Servers.

His research areas include deception detection in computer-mediated environments, secure information systems, the effects of IT on cognitive biases, the effects of IT on knowledge workers, and e-commerce. He has published in several academic journals and has authored several textbooks, including *Corporate Computer and Network Security*, 4th ed., *Applied Information Security*, 2nd ed., and *Applied Networking Labs*, 2nd ed.

Randy lives in Virginia with his wife and three young children. He currently enjoys T-ball, swimming, and running.

Users Review

From reader reviews:

Todd Quesinberry:

Book is to be different for each grade. Book for children till adult are different content. We all know that that book is very important for us. The book Using MIS (8th Edition) was making you to know about other know-how and of course you can take more information. It doesn't matter what advantages for you. The

publication Using MIS (8th Edition) is not only giving you considerably more new information but also to get your friend when you really feel bored. You can spend your personal spend time to read your e-book. Try to make relationship using the book Using MIS (8th Edition). You never truly feel lose out for everything should you read some books.

Deborah Lacey:

Reading a publication can be one of a lot of activity that everyone in the world really likes. Do you like reading book therefore. There are a lot of reasons why people enjoyed. First reading a guide will give you a lot of new facts. When you read a guide you will get new information mainly because book is one of various ways to share the information or perhaps their idea. Second, looking at a book will make you actually more imaginative. When you studying a book especially hype book the author will bring someone to imagine the story how the personas do it anything. Third, you may share your knowledge to some others. When you read this Using MIS (8th Edition), you may tells your family, friends along with soon about yours reserve. Your knowledge can inspire average, make them reading a guide.

Thomas Manna:

People live in this new moment of lifestyle always aim to and must have the time or they will get large amount of stress from both way of life and work. So , if we ask do people have free time, we will say absolutely indeed. People is human not really a robot. Then we ask again, what kind of activity are you experiencing when the spare time coming to you of course your answer will unlimited right. Then do you try this one, reading publications. It can be your alternative throughout spending your spare time, often the book you have read is definitely Using MIS (8th Edition).

Karl Wolfe:

Don't be worry for anyone who is afraid that this book will certainly filled the space in your house, you can have it in e-book approach, more simple and reachable. This specific Using MIS (8th Edition) can give you a lot of buddies because by you investigating this one book you have issue that they don't and make a person more like an interesting person. This kind of book can be one of one step for you to get success. This reserve offer you information that possibly your friend doesn't realize, by knowing more than other make you to be great persons. So , why hesitate? We should have Using MIS (8th Edition).
