Editorial Review

Review
Review from previous edition: "The coverage may not be very different from that of other introductory texts, but in my view the style and content are, and they alone make this text one of the best of its kind. The approach is very data driven, and the use of real data makes this even more appealing...this is an excellent book -- in my view it should be the first choice for any student wanting a serious introduction to the practice of medical statistics." --The Statistician

"If you want to understand some of the statistical ideas important to medicine but fear being overwhelmed by mathematics you will welcome An Introduction to Medical Statistics." --British Medical Journal

"At last I have a book on medical statistics that I can safely recommend to my students!...One of the pleasures of the book is that it contains real data." --Journal of the Royal Statistical Society

"It is a book which I think anyone teaching an introductory course in medical statistics should seriously consider as the main text." --Statistics in Medicine

About the Author

Martin Bland is Professor of Medical Statistics in the Department of Public Health Sciences, St George's Hospital Medical School, London, UK

Users Review

From reader reviews:

Pamela Adair:

People live in this new morning of lifestyle always aim to and must have the spare time or they will get lot of stress from both day to day life and work. So , if we ask do people have time, we will say absolutely indeed. People is human not really a robot. Then we request again, what kind of activity are you experiencing when the spare time coming to an individual of course your answer may unlimited right. Then do you ever try this one, reading textbooks. It can be your alternative within spending your spare time, the actual book you have read is usually An Introduction to Medical Statistics.

Charles Barton:

Playing with family in the park, coming to see the ocean world or hanging out with friends is thing that usually you might have done when you have spare time, then why you don't try matter that really opposite from that. Just one activity that make you not feeling tired but still relaxing, trilling like on roller coaster you are ride on and with addition details. Even you love An Introduction to Medical Statistics, it is possible to enjoy both. It is fine combination right, you still desire to miss it? What kind of hang type is it? Oh occur its mind hangout fellas. What? Still don't buy it, oh come on its known as reading friends.

Joseph Sutton:

Do you have something that you like such as book? The publication lovers usually prefer to pick book like comic, small story and the biggest some may be novel. Now, why not seeking An Introduction to Medical Statistics that give your entertainment preference will be satisfied simply by reading this book. Reading practice all over the world can be said as the opportunity for people to know world better then how they react toward the world. It can't be explained constantly that reading behavior only for the geeky individual but for all of you who wants to always be success person. So , for every you who want to start reading as your good habit, it is possible to pick An Introduction to Medical Statistics become your own starter.

Yolanda Nitta:

In this era which is the greater individual or who has ability to do something more are more important than other. Do you want to become considered one of it? It is just simple method to have that. What you must do is just spending your time little but quite enough to get a look at some books. One of the books in the top checklist in your reading list is definitely An Introduction to Medical Statistics. This book which is qualified as The Hungry Inclines can get you closer in becoming precious person. By looking up and review this reserve you can get many advantages.
