Editorial Review

Review

What do students have to say about *Introduction to Social Work*? Students at Leeward Community College wrote the below to author Michelle Martin:

"Your text is truly fantastic. The in depth writing, and research has held my attention. The writing is clear and the topics are organized in a way that I can easily follow. Whole chapters flow beautifully and I have learned a lot about social work in a short period of time thanks to you. You are a fantastic textbook author. Thank you for this fantastic read."

"Reading is not my favorite thing but I enjoy reading this book. Once I started to read it, I couldn't put it down. It is very interesting but more so easy to follow and understand. This book is well organized with very good examples, facts, research, and history which prepares one with knowledge and skills needed to work in the field of SW. I hope others who are thinking of becoming a social worker are introduced to your book – it is awesome!! I am grateful for what I am learning."

"This book is very enlightening, especially for those of us going into the field of SW. I think it helps me to see that the things social workers have to deal with are not black and white. There is a lot more, especially to be empathic with others. Understanding the history is teaching me that I need to go the extra mile no matter what."

"I really enjoy the book and find it informative, well researched and stimulating –especially from a student who hopes to get his masters in SW. The critical thinking sections are helpful and challenging. I am a Kupuna (an Hawaiian elder) who has returned to school. What stands out for me is the feeling I have of something being taken away from me, or of being less than because our traditions, culture, language and integrity have been taken away as a means to make us subservient. These comments are only the beginning."
