A History of Psychology: Ideas and Context By Thomas Leahey

A History of Psychology: Ideas and Context, Fourth Edition, **is a comprehensive history of psychology tracing psychological thought from antiquity through early twenty-first century developments.**The opening chapters present the reader with a dynamic framework for exploring psychology in the context of historiography and philosophical issues. The text provides in-depth coverage to the intellectual trends that preceded the formal founding of psychology in the late 1870s, coupled with an analysis of the major systems of thought and the key developments in the history of basic and applied psychology. The final chapter focuses on major trends in psychology from the latter half of the twentieth century to the early twentieth-first century.

Editorial Review

From the Back Cover

***A History of Psychology: Ideas and Context, Fourth Edition,* is a comprehensive history of psychology tracing psychological thought from antiquity through early twenty-first century developments.**

The opening chapters present the reader with a dynamic framework for exploring psychology in the context of historiography and philosophical issues. The text provides in-depth coverage of intellectual trends that preceded the formal founding of psychology in the late 1870s, coupled with an analysis of the major systems of thought and the key developments in the history of basic and applied psychology. A new final chapter focuses on major trends in psychology from the latter half of the twentieth century to the early twenty-first century.

About the Author
D. Brett King has been a faculty member in the Department of Psychology at the University of Colorado at Boulder since 1990. He is the author of numerous articles and books on the history of psychology including a book-length biography of the Gestalt psychologist Max Wertheimer, co-authored with Michael Wertheimer. King and his wife, Dr. Cheri King, served as co-archivists for the Rocky Mountain Psychological Association. He has won numerous teaching awards and, in 1995, was honored as CU Boulder's "Best Professor" in a campus-wide student poll conducted by *The Colorado Daily*, CU Boulder's campus newspaper.

Wayne Viney is Emeritus Professor and Emeritus University Distinguished Teaching Scholar at Colorado State University where he taught undergraduate and graduate courses in the history of psychology and an undergraduate course in the development of scientific thought. Dr. Viney served as the Head of the Psychology Department at Colorado State University from 1967 to
1973 and as Associate Dean of Natural Sciences and Director of the University Core Curriculum in Biology from 1973 to 1976. He received 17 teaching awards while working at Colorado State. He has served as President of Division 26 Society for the History of Psychology of the American Psychological Association and as President of the Rocky Mountain Psychological Association. He has published extensively in the history of psychology.

William Douglas Woody is Associate Professor of Psychological Sciences at the University of Northern Colorado where he teaches History and Systems of Psychology at the graduate level. He taught History and Systems of Psychology at the undergraduate level at Colorado State University and the University of Wisconsin — Eau Claire. In 2006, he received the Early Career Achievement Award from the Society for the History of Psychology. Additionally, he has received numerous national, university, and college level teaching awards, and including being named Best Professor by the students at two of the three universities where he has taught.

Users Review

From reader reviews:

Brian Alexander:

Precisely why? Because this A History of Psychology: Ideas and Context is an unordinary book that the inside of the publication waiting for you to snap this but latter it will zap you with the secret it inside. Reading this book adjacent to it was fantastic author who also write the book in such remarkable way makes the content within easier to understand, entertaining technique but still convey the meaning fully. So , it is good for you because of not hesitating having this anymore or you going to regret it. This amazing book will give you a lot of benefits than the other book have such as help improving your expertise and your critical thinking method. So , still want to delay having that book? If I were you I will go to the book store hurriedly.

Henry Evans:
