The battle to succeed him is heating up into the most fiercely contested presidential election in American history. Who will lead a bitterly divided country over the next four years? And just what role—if any—does the US play in history's last days?

As the presidential campaign narrows to a dead heat, the Secret Service learns of a catastrophic terrorist plot to assassinate one of the candidates—but which one? Whom do they want dead? And can US forces stop the terrorists before millions lose their lives?

Editorial Review

From Booklist
In the latest Jon Bennett and Erin McCoy thriller—billed as the finale of the series—terrorists attack the U.S., vaporizing a large chunk of Washington, D.C.; destroying CIA headquarters; and turning Times Square into rubble. The president is presumed dead, and the shaken vice president is trying to restore order. Naturally, he calls on one man: Jon Bennett, the presidential advisor who's already seen more than his fair share of life-threatening danger. Only Jon can stop the terrorists before things get even worse, but Jon's a little preoccupied right now: his wife of only eight months, Erin, is in a refugee camp in Jordan, stricken with a potentially fatal illness. As usual, Rosenberg piles on the action and political commentary, and, also as usual, his right-wing politics are perhaps too overtly evident, threatening to interfere with the story. On the other hand, the story itself is exciting, the characters are more than cardboard, and the pace is frenetic (except for the times when a neon sign flashing author's message interrupts the flow). --David Pitt

From the Inside Flap
From the author who predicted . . .
A kamikaze attack on the U.S.
A war with Saddam
The death of Yasser Arafat
Iran's nuclear threat against Israel

Joel C. Rosenberg's "New York Times" best-selling novels have an uncanny way of coming true.

The first page of his first thriller, "The Last Jihad," put readers inside the cockpit of a hijacked jet, coming in on a kamikaze attack into an American city . . . but it was written nine months "before" September 11, 2001. As "Jihad" unfolds, an American president finds himself at war with Saddam Hussein over terrorism and weapons of mass destruction . . . but it was published five months "before" the actual war with Iraq began.

Rosenberg's second novel, "The Last Days," opens with an attack on a U.S. diplomatic convoy heading into Gaza, the death of Yasser Arafat, and radical Islamic terrorists trying to seize the West Bank and Gaza. Two weeks before it was published, a U.S. diplomatic convoy was attacked in Gaza. . . . thirteen months later, Yasser Arafat was dead. . . . and then Hamas seized control of Gaza.

In "The Ezekiel Option," a dictator rises to power in Russia, an Iranian leader vows to annihilate Israel, and Russia and Iran form an unprecedented military alliance. Then, on the very day the novel came out, Iran elected a new president who vowed to accelerate his country's nuclear program. Four months later, he vowed to "wipe Israel off the map," and then Russia agreed to sell Iran $1 billion worth of high-tech weapons.

In "The Copper Scroll," an ancient scroll describes unimaginable treasures worth untold billions buried in the hills east of Jerusalem and under the Holy City itself-treasuresthat could come from the Second Temple and whose discovery could lead to the building of the Third Temple and a war of biblical proportions. . . . One month after Rosenberg's fourth novel was released, "Biblical Archeology Review" published a story describing the real-life, intensified hunt for the treasures of the actual Copper Scroll.

In "Dead Heat"-"the final novel of the series"-readers will be left breathless as Rosenberg embarks on his most exciting and heart-pounding ride yet, a political thriller that will leave you wondering . . . "Could it happen?. . . . Can we stop it?"
