Self on Audio By Douglas Self

Douglas Self has been writing for Electronics World and Wireless World over the past 20 years, offering cutting-edge insights into scientific methods of electronics design.

This book is a collection of the essential Electronics World articles, covering twenty years of amplifier technology but with a very strong bias towards more recent material. The articles include self-build projects as well as design ideas and guidance for the professional audio designer. The result is a unique collection of design insights and projects - essential for all audio designers, whether amateur or professional.

Douglas Self has dedicated himself to demystifying amplifier design and establishing empirical design techniques based on electronic design principles and experimental data. His rigorous and thoroughly practical approach has established him as a leading authority on amplifier design.

The cream of 20 years of Electronics World articles (focusing on recent material)
A unique collection of design insights and projects - essential for all audio designers, amateur and professional alike.
Scientific electronics based on empirical data

Editorial Review

Review
The result is a unique collection of design insights and projects - essential for all audio designers, whether amateur or professional. -Electronic Servicing & Technology

His rigorous and thoroughly practical approach has established him as a leading authority on amplifier design.
-Electronic Servicing & Technology

About the Author
Douglas Self has dedicated himself to demystifying amplifier design and establishing empirical design techniques based on electronic design principles and experimental data. His rigorous and thoroughly practical approach has established him as a leading authority on amplifier design, especially through the pages of Electronics World where he is a regular contributor.

Users Review

From reader reviews:

Robert Black:

The ability that you get from Self on Audio is the more deep you digging the information that hide within the words the more you get considering reading it. It does not mean that this book is hard to recognise but Self on Audio giving you thrill feeling of reading. The article writer conveys their point in specific way that can be understood by simply anyone who read the item because the author of this reserve is well-known enough. This kind of book also makes your own personal vocabulary increase well. So it is easy to understand then can go together with you, both in printed or e-book style are available. We suggest you for having this Self on Audio instantly.

Terry Kline:

Reading can called brain hangout, why? Because when you find yourself reading a book mainly book entitled Self on Audio your mind will drift away trough every dimension, wandering in most aspect that maybe unidentified for but surely can be your mind friends. Imaging every word written in a book then become one form conclusion and explanation that will maybe you never get previous to. The Self on Audio giving you yet another experience more than blown away the mind but also giving you useful info for your better life in this particular era. So now let us explain to you the relaxing pattern the following is your body and mind will likely be pleased when you are finished studying it, like winning a casino game. Do you want to try this extraordinary spending spare time activity?

Glenda Rizzo:

This Self on Audio is great reserve for you because the content and that is full of information for you who all always deal with world and have to make decision every minute. This book reveal it data accurately using great arrange word or we can say no rambling sentences within it. So if you are read it hurriedly you can have whole info in it. Doesn't mean it only offers you straight forward sentences but hard core information with beautiful delivering sentences. Having Self on Audio in your hand like getting the world in your arm, information in it is not ridiculous 1. We can say that no e-book that offer you world with ten or fifteen tiny right but this e-book already do that. So , this is certainly good reading book. Hello Mr. and Mrs. active do you still doubt that?

David Eaton:

In this period of time globalization it is important to someone to acquire information. The information will make someone to understand the condition of the world. The fitness of the world makes the information easier to share. You can find a lot of recommendations to get information example: internet, paper, book, and soon. You will observe that now, a lot of publisher this print many kinds of book. Typically the book that recommended to your account is Self on Audio this e-book consist a lot of the information on the condition of this world now. This book was represented how does the world has grown up. The language styles that writer use for explain it is easy to understand. Often the writer made some research when he makes this book. Honestly, that is why this book suitable all of you.
