The Cambridge Companion to Raphael (Cambridge Companions to the History of Art) From Cambridge University Press

Raphael is a rare painter who was never out of fashion. This book addresses some of the interests of recent scholarship, which has changed the focus from concern with attribution and definition of Raphael's style and the classic style of the High Renaissance to more practical matters. Investigation of the intellectual and cultural history of sixteenth century Rome and Florence in the past generation have made it possible to put Raphael in the context of his patrons and his other contemporaries. Raphael managed what was no doubt the largest workshop to date and it provided the model for many artists who followed him. This leads us to an understanding of the privileging of invention over execution that takes place increasingly in the sixteenth century. Raphael became the model for artists, beginning already soon after his death and continuing after the collapse of the academic tradition in the late nineteenth century. This reverence is studied in the final section of this book, including an essay that traces changing tastes in restoring his paintings.

Editorial Review

Review
"Taken as a whole, the book will be a useful resource for undergraduates and the seriously enthusiastic layperson."
Time Literary Supplement

"All of the essays attempt to review major scholarship on their topics and to summarize the historical circumstances and intellectual milieu, making them accessible and helpful to the student approaching Raphael for the first time."
Renaissance Quarterly

Users Review

From reader reviews:

Willard Sarvis:
