The Clinical Interview Using DSM-IV-TR, Vol. 1: Fundamentals By Ekkehard Othmer, Sieglinde C. Othmer

In this new edition, completely updated for DSM-IV-TR, the authors transform their professional experience into clear, concise, practical, and learnable skills. They teach how to master each of the four basic interview components separately, and how to make them interact optimally during the five phases of the patient interview. Also included is an example of a write-up of a psychiatric evaluation that will satisfy most third-party payers, taking the reader through the write-up step by step and showing how it can be adapted to virtually any procedural or research need. Changes to this edition: -Addition of discussion of violence and duty to warn -Expansion of attention problems, suicide intent, and comorbidities of personality disorders -Addition of formal assessments of executive functions and of dementia (in appendix) As with the previous edition, The Clinical Interview Using DSM-IV-TR presents a unique vision of how to use the most powerful assessment strategies developed in the field of clinical psychology and psychiatry.

Editorial Review

Review
"Here the unimaginative shackles of orthodox psychiatric history taking and mental state examination are thrown off with the proposal that the diagnostic process starts from the initial contact with the patient. This of course, is obvious to the experienced practitioner but is rarely conveyed in textbooks on psychiatric interviewing, which tend to convey a systematic, rather pedestrian approach, where mental state examination and diagnosis linearly follow data collection. In contrast, the authors' approach is a thinking approach, where mental state examination weaves through-out the interview informing, shaping, and refining the diagnostic process.... This is a textbook that should be read by all mental health professionals, whatever their core discipline. The reader would benefit from reading both volumes in their entirety (over 1,000 pages) but could profit simply from dipping in and rereading relevant chapters.... The reader is introduced to a gourmet menu of interviewing techniques, described in detail and illustrated by deconstructed interviews."-- "Lisetta M. Lovett, Contemporary Psychology APA Review of Books", "2004"

Users Review

From reader reviews:

Kim Townsend:

Have you spare time to get a day? What do you do when you have considerably more or little spare time? Sure, you can choose the suitable activity with regard to spend your time. Any person spent all their spare time to take a stroll, shopping, or went to the Mall. How about open or even read a book titled The Clinical Interview Using DSM-IV-TR, Vol. 1: Fundamentals? Maybe it is being best activity for you. You understand beside you can spend your time with your favorite's book, you can cleverer than before. Do you agree with it is opinion or you have different opinion?

Homer Douglas:

Playing with family within a park, coming to see the ocean world or hanging out with friends is thing that usually you have done when you have spare time, and then why you don't try issue that really opposite from that. 1 activity that make you not experiencing tired but still relaxing, trilling like on roller coaster you have been ride on and with addition of knowledge. Even you love The Clinical Interview Using DSM-IV-TR, Vol. 1: Fundamentals, you are able to enjoy both. It is excellent combination right, you still want to miss it? What kind of hangout type is it? Oh can occur its mind hangout guys. What? Still don't understand it, oh come on its identified as reading friends.

Christine Hughes:

Reading a book to get new life style in this 12 months; every people loves to examine a book. When you go through a book you can get a great deal of benefit. When you read publications, you can improve your knowledge, because book has a lot of information onto it. The information that you will get depend on what

types of book that you have read. In order to get information about your study, you can read education books, but if you act like you want to entertain yourself read a fiction books, such us novel, comics, in addition to soon. The The Clinical Interview Using DSM-IV-TR, Vol. 1: Fundamentals will give you a new experience in examining a book.

Tammy Clark:

Is it an individual who having spare time after that spend it whole day by means of watching television programs or just telling lies on the bed? Do you need something new?
