Editorial Review

Review
"In summary this publication would benefit educators of nurses, midwives and other healthcare students in helping a student to follow a logical and comprehensive patient assessment, whether of an older adult, a patient with medical or surgical needs, a child or pregnant woman. The student would also see clearly how the inter-disciplinary team work together to provide first class holistic care." Nurse Education in Practice, February 2009

Users Review

From reader reviews:

Greta Rivera:
