Introduction to Networks Companion Guide By Cisco Networking Academy

Introduction to Networks Companion Guide is the official supplemental textbook for the Introduction to Networks course in the Cisco® Networking Academy® CCNA® Routing and Switching curriculum.

The course introduces the architecture, structure, functions, components, and models of the Internet and computer networks. The principles of IP addressing and fundamentals of Ethernet concepts, media, and operations are introduced to provide a foundation for the curriculum. By the end of the course, you will be able to build simple LANs, perform basic configurations for routers and switches, and implement IP addressing schemes.

The Companion Guide is designed as a portable desk reference to use anytime, anywhere to reinforce the material from the course and organize your time.

The book's features help you focus on important concepts to succeed in this course:

- **Chapter Objectives**–Review core concepts by answering the focus questions listed at the beginning of each chapter.
- **Key Terms**–Refer to the lists of networking vocabulary introduced and highlighted in context in each chapter.
- **Glossary**–Consult the comprehensive Glossary with more than 195 terms.
- **Summary of Activities and Labs**–Maximize your study time with this complete list of all associated practice exercises at the end of each chapter.
- **Check Your Understanding**–Evaluate your readiness with the end-of-chapter questions that match the style of questions you see in the online course quizzes. The answer key explains each answer.

Denise Lee:

As we know that book is vital thing to add our know-how for everything. By a e-book we can know everything we would like. A book is a pair of written, printed, illustrated or perhaps blank sheet. Every year seemed to be exactly added. This guide Introduction to Networks Companion Guide was filled with regards to science. Spend your time to add your knowledge about your scientific disciplines competence. Some people has several feel when they reading some sort of book. If you know how big advantage of a book, you can truly feel enjoy to read a book. In the modern era like currently, many ways to get book that you just wanted.

Pamela Postma:

As a college student exactly feel bored to be able to reading. If their teacher asked them to go to the library or even make summary for some reserve, they are complained. Just minor students that has reading's internal or real their hobby. They just do what the instructor want, like asked to the library. They go to at this time there but nothing reading very seriously. Any students feel that looking at is not important, boring and can't see colorful pics on there. Yeah, it is to get complicated. Book is very important to suit your needs. As we know that on this time, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. Therefore this Introduction to Networks Companion Guide can make you sense more interested to read.
