Pattern-Oriented Software Architecture Volume 4: A Pattern Language for Distributed Computing By Frank Buschmann, Kevin Henney, Douglas C. Schmidt

The eagerly awaited **Pattern-Oriented Software Architecture (POSA) Volume 4** is about a pattern language for distributed computing.

The authors will guide you through the best practices and introduce you to key areas of building distributed software systems. POSA 4 connects many stand-alone patterns, pattern collections and pattern languages from the existing body of literature found in the POSA series. Such patterns relate to and are useful for distributed computing to a single language.

- The panel of experts provides you with a consistent and coherent holistic view on the craft of building distributed systems.
- Includes a foreword by Martin Fowler
- A must read for practitioners who want practical advice to develop a comprehensive language integrating patterns from key literature.
