Struts 2 with Hibernate 4 Project for Beginners By Sharanam Shah, Vaishali Shah

This book aims serving students, developers, technical leads and to some extent project managers or consultants by demonstrating a structured documented modestly sized project. Learning the project development and documentation is done through the construction of an **Online Shopping Cart** [integrated with a **payment gateway** using **MySQL Community Server** as the data store with Java Server Pages as the delivery mechanism, Struts 2 as the framework and **Hibernate 3** as the Object Relational Mapping library. Framework migration [Struts 2.0.x -> 2.1.x] and the art of migrating the application across databases [with the help of Hibernate] is what the readers would definitely appreciate.

Editorial Review

About the Author
The author Sharanam Shah [www(dot)sharanamshah(dot)com] has 8+ years of IT experience as a Developer, Database Designer, Technical Writer, Systems Analyst and a Lead Architect. He currently consults with several software houses in Mumbai, India, to help them design and manage database applications. Vaishali Shah [www(dot)vaishalishahonline(dot)com], his wife, co-author and a Technical Writer by profession, has a rich experience of designing, developing and managing database systems. Their desire to share the knowledge they've acquired over all these years working together and perhaps partially to keep it available and alive made them co-author and publish several books, most of them tightly focused on commercial application development using software tools.
