Review
"I truly love this book. It treats all of the essential elements of an overview course in a sophisticated style with an abundance of maps and photographs."

--Rosalyn Howard, University of Central Florida

"More than any I have used, this text parallels the way in which I structure my introductory course. It is easy to read, has excellent chapter summaries, and the color photographs and drawings are much more engaging than those in other texts that I've used."

"This is the only anthropology text I have encountered that provides just about the right amount of fact, theory, and examples."
