For one-semester courses in General, Organic, and Biological Chemistry

Show the importance of chemistry in the real world

Chemistry: An Introduction to General, Organic, and Biological Chemistry, Twelfth Edition is the ideal resource for today's allied health students. Assuming no prior knowledge of chemistry, author Karen Timberlake engages students through her friendly presentation style and reveals connections between the structure and behavior of matter and its role in health and the environment. With a renewed focus on problem-solving skills, the Twelfth Edition encourages active learning through the new, interactive Pearson eText enhanced with media within MasteringChemistry. New Interactive Videos, Sample Calculations, 'Problem Solving in Allied Health' Tutorials, and Dynamic Study Modules bring chemistry to life and walk students through different approaches to problem solving, providing remediation where needed.

This program provides a better teaching and learning experience–for you and your students. It will help you to:

• **Personalize learning with MasteringChemistry**®: This online homework, tutorial, and assessment program helps students master core concepts and problem-solving skills, thus freeing up time in the classroom for instructors to focus on complex topics.
• **Show the relevance of chemistry through real-world examples**: Activities and applications throughout the program couple chemistry concepts with health and environmental career applications to help students understand why course content matters.
• **Foster development of problem-solving skills**: The program introduces a variety of clear problem-solving strategies early in the text that are reinforced through Allied Health Tutorials in MasteringChemistry and revisited when needed.
• **Help students visualize and understand concepts**: The text's engaging visual features, including macro-to-micro illustrations, a rich photographic program, and concept maps, help students understand chemistry by seeing chemistry.

This Package Contains:

Editorial Review

About the Author

Karen Timberlake is Professor Emerita of chemistry at Los Angeles Valley College, where she taught chemistry for allied health and preparatory chemistry for 36 years. She received her bachelor's degree in chemistry from the University of Washington and her master's degree in biochemistry from the University of California at Los Angeles.

Professor Timberlake has been writing chemistry textbooks for 35 years. During that time, her name has become associated with the strategic use of pedagogical tools that promote student success in chemistry and the application of chemistry to real-life situations. More than one million students have learned chemistry using texts, laboratory manuals, and study guides written by Karen Timberlake. In addition to ***Basic Chemistry,* Fourth Edition**, she is also the author of ***General, Organic, and Biological Chemistry: Structures of Life,* Fourth Edition**, and ***Chemistry: An Introduction to General, Organic, and Biological Chemistry,* Eleventh Edition** with the accompanying Study Guide, Selected Solutions Manual, Laboratory Manual, and Essential Laboratory Manual.

Professor Timberlake belongs to numerous science and educational organizations including the American Chemical Society (ACS) and the National Science Teachers Association (NSTA). She was the Western Regional Winner of Excellence in College Chemistry Teaching Award given by the Chemical Manufacturers Association. In 2004, she received the McGuffey Award in Physical Sciences from the Text and Academic Authors Association for her textbook Chemistry: An Introduction to General, Organic, and Biological Chemistry, eight edition, which has demonstrated excellence over time. In 2006, she received the Textbook excellence award for the first edition of Basic Chemistry. She has participated in education grants for science teaching including the Los Angeles Collaborative for Teaching Excellence (LACTE) and a Title III grant at her college. She speaks at conferences and educational meetings on the use of student-centered teaching methods in chemistry to promote learning success of students.
